Kristian Sägi

Technology Leader & CEO. Building resilient companies, teams and systems.

Tallinn, Estonia · kristian@kristiansagi.com · kristiansagi.com · linkedin.com/in/kristiansagi

Professional summary

Technology and engineering leader with over two decades of experience founding companies, building high-performing teams and scaling global software organizations. Currently CEO of Entringo. Co-founded Playtech Mobile and scaled it from inception to $120M in annual revenue, co-founded the globally used mobile CI/CD platform Codemagic, and built Dynatrace's Tallinn engineering hub.

Combines a founder's mindset with executive discipline — translating complex technology challenges into scalable systems, empowered teams and measurable outcomes. Experienced in product strategy, P&L leadership and organizational transformation across multinational, distributed teams.

Professional experience

Entringo — Tallinn, Estonia

Chief Executive Officer 2026 – Present

- Leading a provider of integrated vehicle flow systems — ticketless ANPR parking, yard and traffic management — combining in-house software with purpose-built hardware.
- Moving Tallinn Airport to fully ticketless, number-plate-based parking, unifying every parking product (taxi lanes, rideshare, short and long term, VIP, tenant access) on one platform, delivered with Hansab Eesti.
- Serving customers across the Baltics, including frictionless paid parking for Business Garden Vilnius.

Dynatrace Inc — Tallinn, Estonia

Director of Engineering / Site Lead 2022 – 2025

- Scaled Dynatrace's Tallinn engineering hub, tripling headcount and establishing culture, processes and a new office from the ground up.
- Directed delivery of high-performance monitoring products, aligning releases with global strategy.
- Led cross-functional engineering, product and operations teams across multiple countries.
- Partnered with global leadership on portfolio strategy and long-term scaling plans.

Nevercode Ltd / Codemagic — London & Tallinn

Co-Founder & Head of Product Strategy 2017 – 2019

- Co-founded and scaled Codemagic, a CI/CD platform for mobile developers now used globally.
- Defined and executed product strategy, achieving recognition in the Google Flutter ecosystem.
- Led engineering and product teams through early-stage growth and funding.

Advisory Board Member 2019 – 2022

- Advised leadership on scaling, product strategy, market positioning and investor relations.

Playtech Mobile (Playtech plc) — Estonia

Co-Founder & CTO, Mobile Division 2005 – 2015

- Built and scaled Playtech Mobile from inception to $120M in annual revenue across multiple regulated international markets.
- Built and led an organization of 100+ engineers and product managers across distributed teams.
- Delivered product strategy, architecture and execution for 100+ clients globally.
- Introduced an agile delivery model, moving release cycles from quarterly to monthly.

Product Manager, Bingo Network 2004 – 2005

- Managed 24/7 global operations across multiple regulated markets; directed product enhancements and customer integrations.

Assert AS / Fujitsu Estonia — Tallinn, Estonia

Software Engineer → Product Manager, Persona 1996 – 2003

- Part of the original team that built the first version of Persona, the HR and payroll software still in daily use three decades later; later led the team responsible for Persona V2.

Other roles

GreenhouseCI — Head of Business Development (2016 – 2017) · Simplify OÜ — Design Thinking Coach (2016)

Board, advisory & mentorship

- **Advisor** to technology companies on scaling engineering organizations, product strategy and leadership (Present)
- **Key Mentor** — Ajujaht Startup Accelerator (2022 – Present)
- **Coach** — ESA Business Incubation Centre Estonia (2018 – Present)
- Member — Estonian Business Angels Network, EstBAN (2015 – 2018); Estonian Startup Leaders Club (2017 – 2018)

Talks & media

- Keynote: *To Build Fast, You Need to Be Slow* — sTARTUp Day 2022
- Featured in *The Story of Codemagic* — documentary on the Google Flutter partnership
- Podcasts and interviews: The Pursuit of Scrappiness (2023), TalentHub (2022), Äripäev, Postimees — kristiansagi.com/media
